

Product: BB Line suspended linear lighting
up and down light with opal diffuser

LED

Description:

Opal optics– up and down lighting version of the BB Line series, whose exquisite and simple design, not only supporting the complex but uniform structural components, but also dealing with the mechanical and electrical connection skillfully. Anti-glare technology to maximize the visual comfort of working space.
30% up light and 70% downlight split.

Physical attributes:

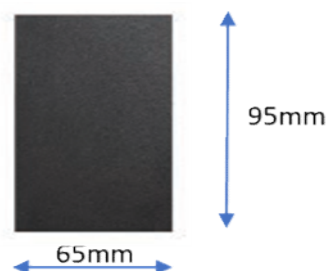

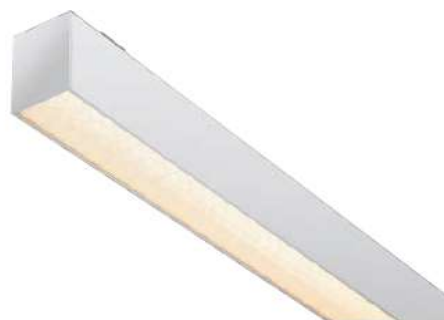

Width: 65mm
Length: 565mm to 2245mm
Height: 95mm

Mounting type: suspended
Colour finish: White or Black
Dimming protocol: DALI or switching

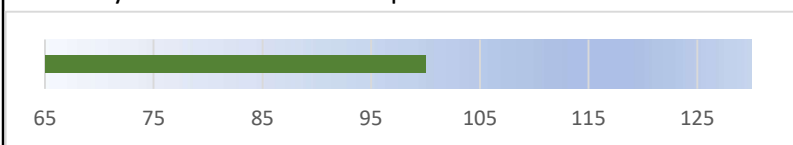

Lighting attributes:

LED manufacturer: CREE
Driver manufacturer: Tridonic
Optics: Opal
Lumen output: 2600 to 7300lm
Power consumption: 30w to 91w
Colour temperature: 3000K or 4000K
Colour consistency: <3 Std MacAdam
Colour rendering: Ra>80
Rated LED lifetime: 50,000 hours

Warranty: 5 years

Efficiency in luminaire lumens per circuit watt: **100**
